The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Japan ('495).

In particular, the applicant's attention is directed to Figure 1 of the reference and the comments made in the foreign search report regarding the reference. As noted in the report noted, the camshaft includes a disk limiting its travel in one direction and a helical gear biasing it in the other direction.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
